

## PRODUCT DATA

## GREEN PAINT STRIPPER 2950

### DESCRIPTION

RUST-OLEUM® Paint Stripper 2950 is a paint dissolving material in an aerosol. Contains no methylene chloride.

### RECOMMENDED USES

RUST-OLEUM Paint Stripper 2950 should be used for quick removal of old paint. RUST-OLEUM Paint Stripper 2950 is intended to remove all types of oil- and alkyd-based paints, emulsion paints, varnish and most two-component materials from metal, mineral and wooden substrates. As RUST-OLEUM Paint Stripper 2950 does not contain methylene chloride, acids, alkali's, NMP, biocides en conservation additives.

### TECHNICAL DATA

Appearance: White, foamy layer  
VOC-content: 750 g/l

### Coverage

Theoretical: 2-3 m<sup>2</sup> per aerosol.  
Practical: Practical coverage depends on many factors such as type of old coating and shape of the substrate and material losses during application.

### SURFACE PREPARATION

Remove loose coatings as much as possible by scraping.

### DIRECTION FOR USE

Remove cover cap. Shake vigorously before use. Hold the can approx. 10-20 cm from the substrate. Apply a uniform foam layer of Paint Stripper 2950; allow standing for minimal 15 minutes, and removing the old layer with a filling knife or paint scraper. Thick layers of some (two-component) products may need an additional treatment. After use, clean the surface with cleaner/degreaser, fresh water or white spirit and allow drying completely before applying a coating.

### APPLICATION CONDITIONS

Temperature of air, substrate and aerosol between 10 and 35°C.  
Relative humidity below 85%.

### REMARKS

RUST-OLEUM Paint Stripper 2950 may affect plastic materials alike e.g. PVC, polystyrene. In case of doubt, try on a small test patch beforehand.

### SAFETY

Consult Safety Data Sheet and Safety Information printed on the can.

### SHELLIFE / STORAGE CONDITIONS

2 years from date of production in unopened cans, if stored in dry, well ventilated areas, not in direct sunlight at temperatures between 5° and 35°C.
